Instructional methodology:-	Duration-15 to 20 min.
Teaching Strategy(ies):- Explanation, Word meaning, Describing, Exemplary, QA Explanation:-Present Democratic scenerio prooves that India is the strong Democracy. In this title our constitution has played an important role. If our democracy is strong it means our constitution is successful that from last seventy years, it is working in this ocean of diversities successfully smoothly, and helping our government to work. Now let us have a look behind that how did this constitution take this shape. It is the time of 1946 when after Cabinet mission it was decided to work on our independence. Then in Nov. 1946 A constituent assembly was established which consisted 300, Indian leaders having an issue of making faultless rule book "The Constitution". The participants belonged from	

all over India so we could work on diversities. They had a long series of discussion, meeting and verification of hundreds of documents. Their hours long discussion ended in the product of "constitution" which was completed in Nov. 1950 for memorizing the date of Lahore session 26 Jan 1930 where Nehru demanded complete Independence.

Universal adult franchise was a prominent feature accepted by our leaders. It gave a chance to us all having the age of 21 for boy and girls to vote for selecting and electing our leaders first time. Later during the time of our PM Rajeev Gandhi this age was reduced up to 18 years. None of the other country in the world had given this right to all citizen in one chance without having any discrimination.

This franchise proved another feature of our constitution is that equality before law, regardless of the caste, religion, gender, education and economic status. That's why we had not selected as any national religion. when the leaders decided all the above feature they accepted one more that is privileges for poor and disadvantaged people. The leaders showed their concern to abolish untouchability. They decided to give some reservations in education and job till they come up to a good status.

When everything was being discussed how could we leave talking about the powers of government. It was also discussed and all duties and directive principals were mentioned in one of the chapter of constitution. For making our country strong we accepted federal system. To make sure that we will follow it sincerely three lists were made to distribute work order named as Union list, State list and Concurrent list. The responsibilities were distributed separately to various levels of governments. In this diverse ocean , they had to discuss about language also. Now it became a matter of North and South. No compromise was happening over. But with some long discussion Hindi was declared as official language and English as the working language.

At last in all above process we should not forget the role of Dr. Ambedkar who gave his valuable time and suggestion with all efforts. He tried to make our political economy successful with the support of social and economic democracy.

Closure

Duration -5min.

Closure strategy:-Verification (Think and Answer)

- 1- When did the constituent assembly start working ?
