

The Invention of Vita-Wonk

Roald Dahl

About the Author:

- Roald Dahl was a British novelist, short story writer, poet, screenwriter and fighter pilot.
- He was born in 1916 in Cardiff, UK.
- His books have sold more than 250 million copies worldwide.
- He served in the Royal Air Force during the Second world war.
- Dahl passed away in 1990.

About the story:

- Mr Willy Wonka was a scientist who invented a tonic named Wonka-Vite which made people younger but it soon became a problem as many people disappeared because their age went into negative!
- The scientist decided to reverse the harm done and roamed around the world to collect the samples of the oldest things present in the world.
- He took a pint of sap from Bristlecone Pine tree, an egg laid by 200 years old tortoise and so on.
- He made a tonic and tested it on his brave volunteer successfully and that is how he invented Vita-Wonk.
