*Ch-9 A Shirt ☐ ☐ in the
Market*

*In this ppt we will study
:~)*

*--} to be able to learn about the
processing of shirt in market*

*--} to be able to know about the
conditions of weavers*

A cotton farmer in Kurnool

--} Here is a story of a cotton farmer who lives in Kurnool and it also describes the processing of cotton

--} Given is also short conversation between the trader and cotton farmer (Swapna)

--} Swapna has toiled the cotton so well and too it was very fine still the trader only pays her ₹1800 instead of ₹3000 and she also had a very big loss of selling the cotton

--} *She didn't argue as she knew that trader is a powerful man and they have to depend on him for loans for growing more cotton*

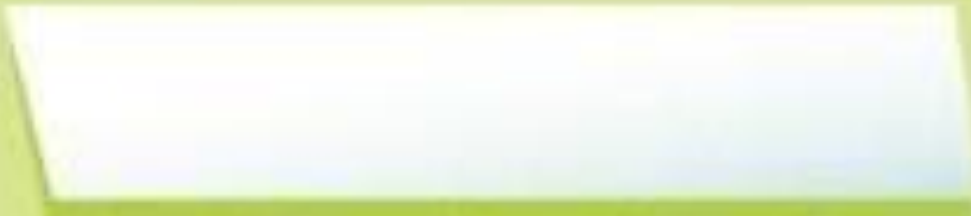

The cloth market of erode

--} *The Bi-weekly market of Erode at TAMILNADU which is the greatest biggest cloth selling market in the world .*

--} *Cloth made by weavers from all comes here for sale*

--} *The weavers get the yarn from merchant and supply them the cloth*

--} This makes it easy for weavers and they don't have to spend their money on buying the yarn .

--} Since the weavers don't know the price of cloth, they are at a loss and get a very small amount.

The Garment exporting factory near Delhi

--} Erode merchants send the cloth to the garment exporting factory near Delhi.

--} The garment factory makes shirt to be sold to the chain of business from USA and Europe.

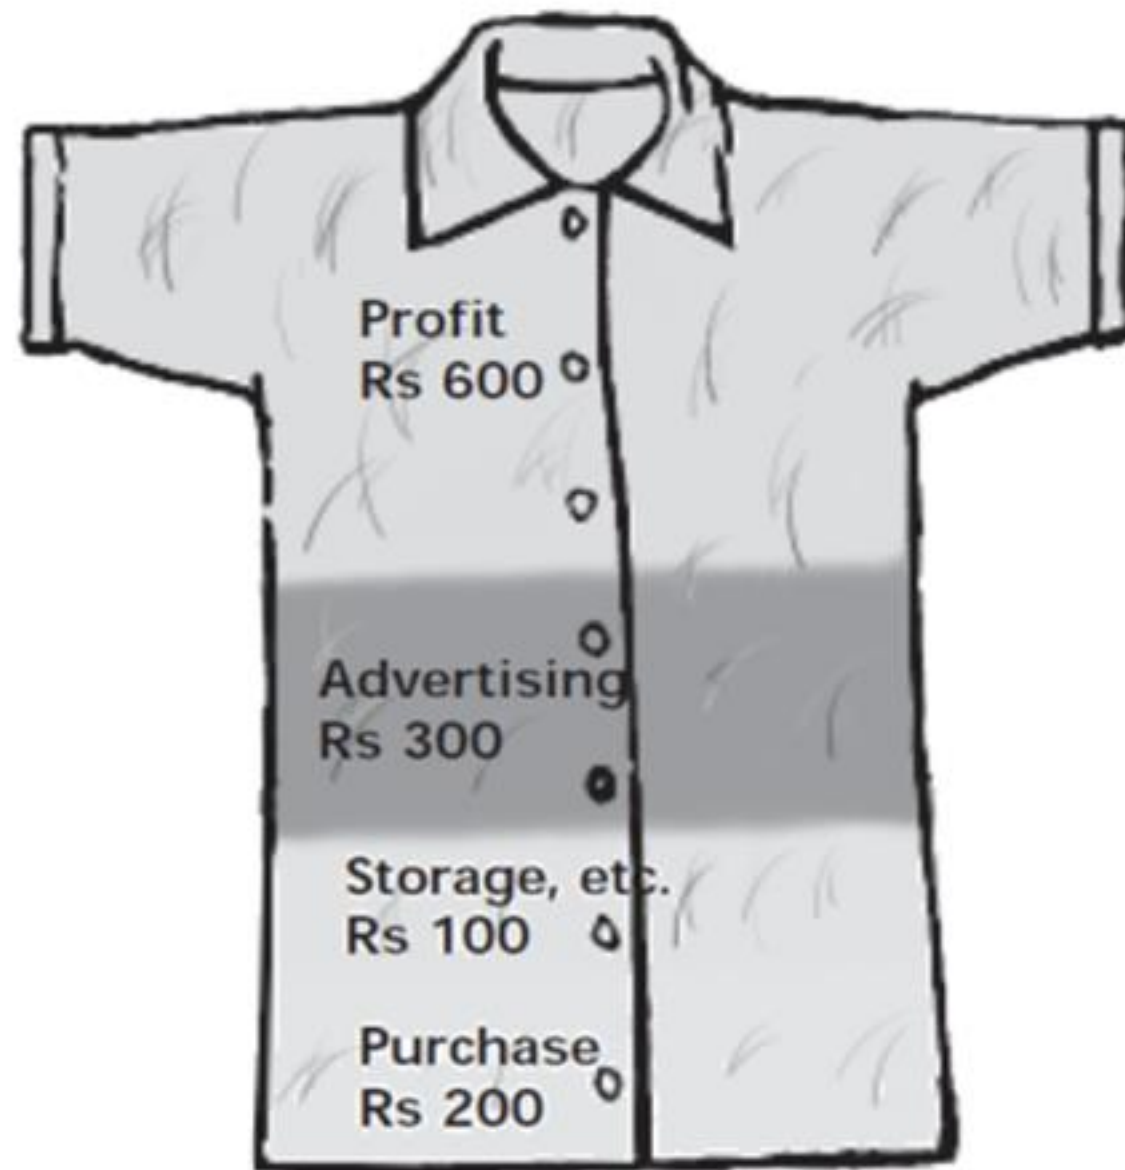

The shirt in US

--} The shirt sent from the garment factory is sold in dollars in USA

--} The shirt is sold by factory at ₹ 200 but in USA it is sold at ₹ 1200

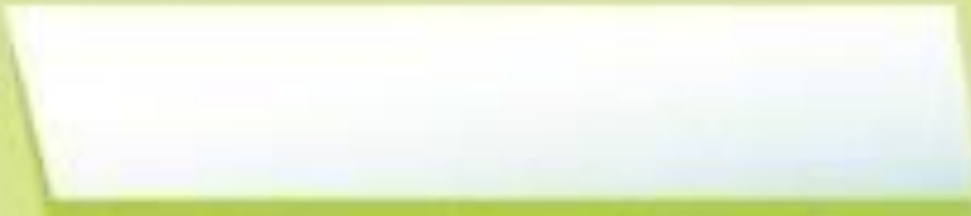

Market and equality

--} The foreign businessmen made huge profit in the market

--} Garment manufacturers only made moderate profits

--} Weavers at erode market and small farmers don't get huge profits

--} Poor people had no option else then to depend on rich.

--} Poor are exploited in the market

--} Laws should be made to protect the interests of weavers and small farmers

Glossary

--} *Ginning mill* --- *A factory where seeds are removed from cotton bolls and they are turned into threads*

--} *Exporter* --- *A person who sells goods abroad*

--} *Profit* --- *the gained the money after removing all expenses*

Cotton cycle

1. Trader sells the cotton at the Kurnool cotton market.

2. Ginning mill buys the cotton.

3. Ginning mill removes the seeds and presses the cotton into bales.

4. Spinning mill buys the bales.

5. Spinning mill spins the cotton into yarn.

6. Spinning mill sells the yarn to yarn dealers.

Thank
you
