

SUBJECT: MATHEMATICS

CLASS: VI

CHAPTER NUMBER: 2

CHAPTER NAME: WHOLE NUMBERS

TOPIC: COMMUTATIVE PROPERTY OF MULTIPLICATION

EXPERIENTIAL LEARNING: HANDS ON ACTIVITY

Students are asked to get a Dominos card and find the product of the dots represented on it.

Students with the same product and total number of dots are asked to form a pair.

For example, Product : 8

Total no. of Dots : 6

CURIOSITY QUESTION:

Are Whole numbers commutative under multiplication?

ANSWER GUIDE:

1. How is the collection of whole numbers different from the collection of natural numbers?
2. What is the multiplicative identity for whole numbers?
