

SUBJECT: MATHEMATICS

CLASS: VI

CHAPTER NUMBER: 4

CHAPTER NAME: BASIC GEOMETRICAL IDEAS

EXPERIENTIAL LEARNING: AUDIO- VISUAL

Students are asked to watch the videos from the given links.

Video Link: 1

<https://www.youtube.com/watch?v=sajxuoq7QyQ>

Video Link: 2

<https://www.youtube.com/watch?v=hd3umsscydg>

The video link 1 explains the types of angles and link 2 explains the parallel lines and intersecting lines. Thus, basic geometrical ideas will be introduced in the class.

CURIOSITY QUESTION:

Anu is standing, facing southern direction. She turns by 90° in anticlockwise direction. Again she turns by 180° in anticlockwise direction. Now she turns 90° in clockwise direction.

Which direction is Anu facing now?

ANSWER GUIDE:

- In the yoga posture, identify the type of angles 1, 2 and 3?
- What do you mean by the term ‘vertex of an angle’?
