

SUBJECT: MATHEMATICS

CLASS: VI

CHAPTER NUMBER: 5

CHAPTER NAME: UNDERSTANDING ELEMENTARY SHAPES

EXPERIENTIAL LEARNING: AUDIO-VISUAL

Students are asked to watch the video from the given links.

Video Link 1:

<https://www.youtube.com/watch?v= wfTsmmteVE>

Video Link 2:

<https://www.youtube.com/watch?v=61lZpLRnXUM>

With the help of the above links, 3-Dimensional shapes and Quadrilaterals will be introduced in the class.

CURIOSITY QUESTION:

How can you say that a ball is a 3- Dimensional solid?

ANSWER GUIDE:

1. Does the ball have any edges or corners?
2. Can you see lines and line segments?
3. List some examples of solid shapes that we use in our daily life.
