CURIOSITY QUESTION:

Place the numbers -2,-1, 0, 1, 2 in the circles as given in the diagram, so that the sum of numbers in each direction is the same.

Can this be done with 1 or -1 in the middle of the top row?

ANSWER GUIDE:

1. If 2 is in the middle of the top row, find the sum of the numbers.
2. What do you mean by additive inverse?
3. Is it possible to show addition and subtraction of integers on the number line?
