

HANDS – ON ACTIVITY ON PERIMETER

CLASS VI

SUBJECT : MATHEMATICS

AIM : TO FIND THE PERIMETER OF A GIVEN ENCLOSED 2 DIMENSIONAL IRREGULAR FIGURE

PROCEDURE : Students are provided with a space in form of a figure preferably irregular, and asked to find out the perimeter. They use inch tapes, long scales, rope etc to find the length of each side separately and then compute the total perimeter by adding all the lengths.

SKILLS USED : Measurement of lengths, handling long lengths, understand concept of meter and centimeter
