

# D.A.V. PUBLIC SCHOOL, VELACHERY, CHENNAI – 42

SUBJECT: MATHEMATICS

CLASS: VII

CHAPTER NUMBER: 3

CHAPTER NAME: DATA HANDLING

TOPIC: Double Bar Graph

CURIOSITY QUESTION

1. What do you mean by collection of data?

ANSWER GUIDE

1. How can students collect the data?
2. What does the X – axis and Y – axis represent on a graph?
3. Can you think of a few more situations where you could use double bar graphs?

EXPERIENTIAL LEARNING ACTIVITY

For the better understanding of double bar graph, students will be asked to take a survey on number of girls and boys in Class VII in all sections. For this, students will be asked to draw a double bar graph using paper cutting and pasting.
