CLASS: IX

CHAPTER 4: LINEAR EQUATIONS IN TWO VARIABLES

CURIOSITY QUESTIONS:

1. Give an example of a linear equation?
2. What is the standard form of a linear equation?
3. What are the parts of an equation called?
4. What is a one-step linear equation?

ANSWER GUIDE:

- What is the difference between equations and identities?
- Give an example of a literal equation.
- How is a fifth degree equation called?
- Write the equation of x-axis.

EXPERIENTIAL LEARNING:

The video link is an introductory video on Linear Equations in Two Variables
