

### **Activity Number- G 6**

**Class-** V                      **Subject-** S.St.                      **Month-** November                      **Duration-** 1 hour

**Activity-** Create our own landform                      **Lesson-6** Major landforms of the earth

**Learning outcome** – The students will be able to identify and create the major landforms of the earth.

**What I have to do?** – To create the major landforms of the earth.

**What I require?** – soil, cement, stones, water, clay and cardboard covered with a plastic sheet.

**Nature of activity-** Pair or group activity

**What I already know?** – Names and nature of landforms.

**How will I proceed?** – Teacher Activity- Teacher will instruct the students to follow the steps and do the activity.

#### **Students' activity**

1. Put all the material like soil, cement, stones, clay, water and cardboard on the table.
2. Take the cardboard and divide it into four equal parts and number them column 1,2,3,4.
3. Write the names of four landforms in every column as 1 for plains, 2 for mountains, 3 for desert, 4 for plateaus. On the cardboard, put some wet soil in column 1 to make plains and flatten the top.
4. In column 2, keep the stones one on the other in the form of pyramid so that it looks like a mountain.
5. Now put a mixture of dry soil and cement in column 3 to make desert.
6. Take the stones and make a flat top for making column 4 plateaus. Use clay to fill the empty space and bind the stones to make a flat top.
7. Write the names of landforms on the chits and paste them on ice cream sticks.
8. Paste the sticks on top of the landforms and speak one point on any one landform.

**What have I observed?**

**Write the appropriate term for the following:-**

|    |                                  |  |
|----|----------------------------------|--|
| 1. | Flat table top land              |  |
| 2. | Fertile land                     |  |
| 3. | Sand dunes occur more frequently |  |
| 4. | Mining sites                     |  |
| 5. | Store house of water             |  |

**What have I learnt?**

Q1. Which landform is rich in minerals?

Ans. \_\_\_\_\_

Q2. Name the adventures sports which you can do on the mountains.

Ans. \_\_\_\_\_  
\_\_\_\_\_

Q3. After doing this activity, which landform do you think is best for agriculture and construction? Why?

Ans. \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Q4. Mention the state of India where hot desert is found.

Ans. \_\_\_\_\_

Q5. Do you think the temperature varies in each and every landform? Explain the possible reason of this variation.

Ans. \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
