

Subject – Geography Month –May Duration – 1 Hour

Activity – MOCK DRILL Lesson – OUR CHANGING EARTH

LEARNING OUTCOME – To critically examine the role of first aid box during a disaster and to perform an evacuation mock drill during an earthquake.

WHAT I HAVE TO DO? – Mock drill and making of a first aid box.

WHAT I REQUIRE? – Buzzer for the mock drill, a reusable shoe box, basic medicines, cotton and bandage.

NATURE OF ACTIVITY – MOCK DRILL

HOW DO I PROCEED?-

TEACHER’S ACTIVITY -

To evacuate safely during an earthquake to a safer place.

1. To evacuate with the whole class in an orderly manner so as to avoid stampede situation.
2. To be trained as to how to be safe from the falling debris if on the higher floor and cannot evacuate the building by following drop-down-cover procedure.

PREPARATION OF THE FIRST AID BOX

1. To bring basic medicines, re-useable shoe box, cotton and bandage.
2. To make a first aid box.
3. To complete the observation table.

What have I observed?
