

EXPERIENTIAL LEARNING

SUBJECT: SOCIAL SCIENCE (GEOGRAPHY)

CLASS: VIII

CHAPTER 1: RESOURCES

Curiosity Questions

1. Why is the price of petrol always on an increase?

Answer Guide:

- From where do we get petrol?
- Do we have extensive reserves of crude oil?
- What will happen if the reserves are completely used up?

2. Do you think we can use resources lavishly?

Answer Guide:

- Are resources uniformly available on the earth?
- What will happen if we use them indiscriminately?
- What can be done to conserve resources?

Experiential Learning Activity:

The students will collect different objects such as stone, sand, leaves, flowers etc. from around their home and school. They will display them in the class. The students will observe them and discuss what they are made up of and classify them based on their origin. They will also debate on whether they are renewable sources.
