

SUBJECT - SOCIAL SCIENCE

CHAPTER – 6 POPULATION

CLASS –IX

DURATION: 30 MINS

Nature of activity: INDIVIDUAL

ASSESSMENT TECHNIQUE: Group Discussion

Learning outcome : By doing this activity student will be able to:

- understand social issues
- analyse the consequences of various aspects of the population growth in India.

What I have to do? To prepare for Group Discussion in the class.

What do I require?

A sheet of Topics, A sheet of observation table, pen, pencil, worksheet.

Teacher's activity

Teacher will initiate the proceeding by introducing the topic, for example, 'Girl Child needs to be protected'.

Teacher will speak about the sex ratio and the growing imbalances of the sex ratio and will raise a question 'Is it necessary to protect the girl child'?

4. How will I proceed?

Student's activity

The class may be divided into small groups.

Teacher will speak about the sex ratio and the growing imbalances of the sex ratio and will raise a question 'Is it necessary to protect the girl child'?

The question is passed to different groups. Based on the arguments placed further questions be created and an atmosphere for further thinking is created.

This will definitely give an opportunity for the learner to associate various aspects of the growing imbalance in sex ratio and the need to balance it.

What have you observed ?- Students will write some ways in which they can eradicate such differences occurring in their society.

OBSERVATION TABLE

Ways to eradicate differences occurring in the society on the basis of sex:

1.

2.

3.

Worksheet
