

Activity Number- H 9

Class - VI

Subject-S.St.

Month- December

Duration-1 hour

Activity- Creating ring wells **Lesson-9** Vital villages ,thriving towns

Learning outcome – The students will be able to create the ring wells and understand the importance of sanitation for people in ancient times.

What I have to do? – Create a ring well

What I require? – Clay and cardboard.

Nature of activity- Individual activity.

What I already know? – wells and garbage dumps.

How will I proceed? – Teacher's Activity- Teacher will instruct the students to do the activity step by step.

Student's activity-

1. Put the clay and cardboard on the table.
2. Mould the clay into round thin lines which will look like rings.
3. Cut the clay lines in equal size.
4. Mould the lines in round shape.
5. Put all clay mould lines one on top of the other.
6. Now the ring well is ready.
7. Display the structure on cardboard to the whole class.
8. Discuss with the class.

What have I observed?

S. No.	TYPE OF WELL	PURPOSE	PLACE WHERE IT IS FOUND
1.	Ring well		
2.	Tube well
