- ▶ She died of heart failure in January' 1990

Poetic Devices

- ▶ Rhyme
- ▶ Personification

Essence of the Poem

In the poem 'The Wonderful Words' the poet says that it's hard to imagine a world without language. We use an amalgamation of words to bring out our thoughts. English language is considered to be a game where you can mix and match words to convey your feelings. It's important to say what you want to or have to, so just say it by using the correct set of lovely words as they want to be free from the prison behind your eyes.

Thank You
