

CONTENT OUTLINE

Part-I	Competency-based Education
Module 1	Understanding Competency-based Education
Part-3	Why Competency-based Education is Important and Needed?

- 1. A quote by Dr. A.P.J. Abdul Kalam**
 - “Educationists should build the capacities of the spirit of inquiry, creativity, entrepreneurial and moral leadership among students and become their role model.”

- 2. A shift from traditional education system to a competency-based education system**
Traditional education system-
 - Follows 'one-size fits all approach' for students
 - Advancement is based on seat-time than Mastery in learning
 - Does not focus on building competencies required for life-long learning

- 3. Need for competency-based education**
 - Lifelong learning
 - Empowered and inclusive culture of learning
 - Timely and differentiated instruction and support
 - Pedagogical principles aligned to meet needs and goals of students
 - Transparency with clear and explicit expectations

- 4. Benefits of competency-based education**
A student-centered approach
Gives flexibility to students
Focuses on achieving proficiency
Provides timely support and feedback to students
Promotes one-to-one learning
Has a transparent Grading system
