What are the steps to Insert Image in Photoshop.

Procedure : Perform the following steps to insert image in Photoshop :

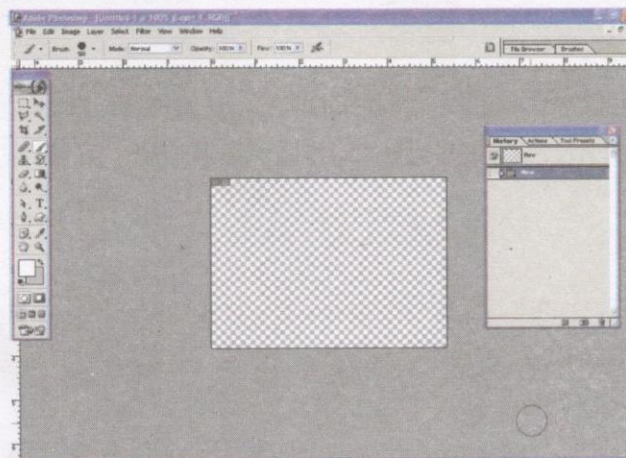

1. Click on File → New option.

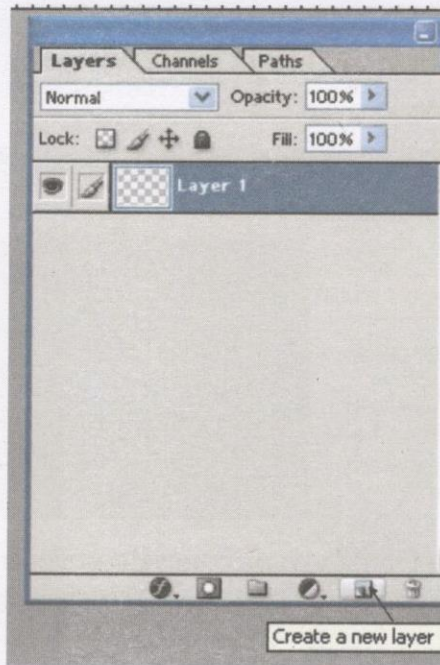

2. Now the given dialogue box will appear on the screen :

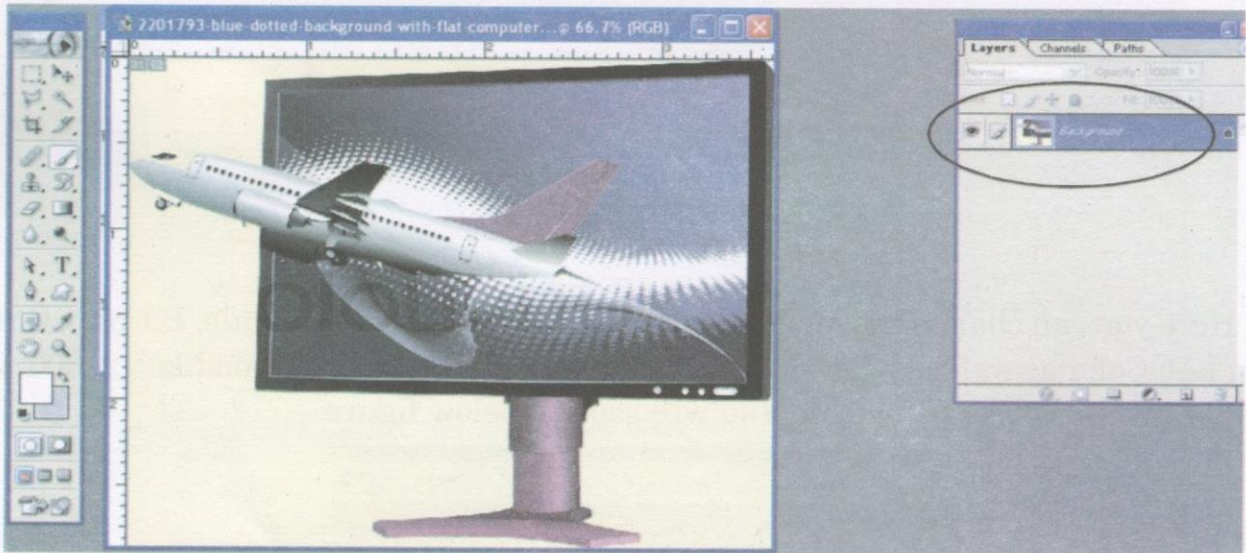

3. Here you can change the Mode of color like : RGB Color, Grayscale, Bitmap, CMYK Color, Lab Color as well as page size. We can also change the resolution like 72, 300, 600, 1200 per pixels. Click OK button. You will see the below figure.

4. Now click on Create a new layer option. Select to the Layer 1 from layer dialogue box.

5. Now open a desired file.

5. Now we can also see the desired file on Layer dialogue box.
