

PRACTICAL - 12

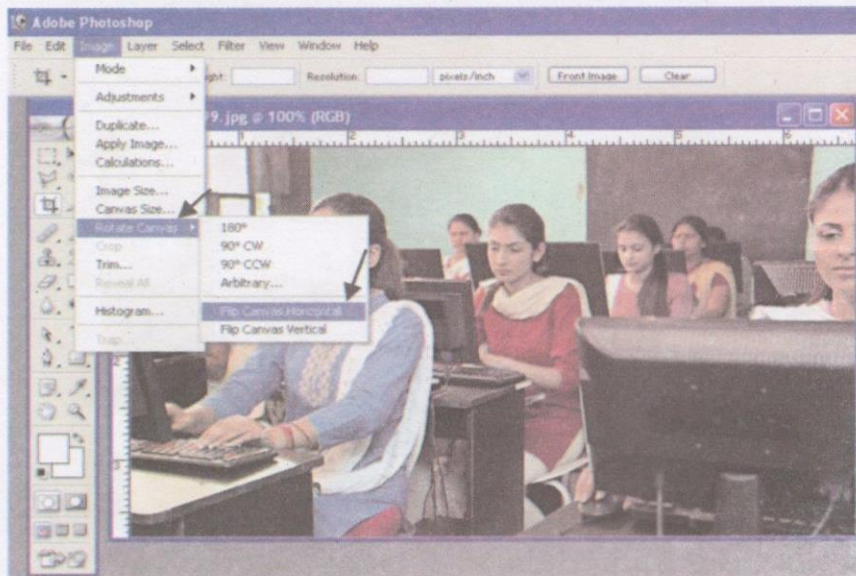

What are the steps to flipping a image ?

Procedure : Perform the following points to flip a image :

1. Create a new file or Ctrl + N.
2. Then open any file of a image and Press on Open button.
3. The below figure will appear on the screen.

3. Now click on Image — Rotate Canvas — Flip Canvas Horizontal option.

4. The photo will be flipped as shown in figure.

In this way you can flip any figure in Adobe Photoshop.
