Which browser we can use by Web Page. Tell about them.

Procedure : Following Web Browser can be used to open Web Page :

(i) Internet Explorer :  It is widely used. It is bundled with Microsoft Windows operating system and can also be down loaded from Microsoft Website.

(ii) Google Chrome : It is a fireware Web browser. It was first released in 2008 for Microsoft Windows and was later ported to Linux, OS and Android.

(iii) Mozilla Firefox : <http://www.mozilla.org> Firefox is a Web browser that is smaller, faster, and in some ways more secure than the Mozilla browser from which much of its code was originally derived. As compared to Internet Explorer, the most

popular Web browser, Firefox gives users a cleaner interface and faster download speeds.

(iv) Opera : Opera is a web browser developed by opera software. The latest version is available for Microsoft Windows OS x, and Linux operating system. Opera is a Web browser that provides same advantage over other browsers.
