A calendar with one month on each page

MISCONCEPTIONS

None

KEY VOCABULARY

None

Divide students in groups of 4 & distribute 1 calendar to each group

Remind students that they have previously used calendars to identify months in a year

QUESTION

What all can you see on the calendar?

What do the numerals on the calendar represent?

Ask each group to find the date on the calendar & circle it

Ask students to mark their birthdays on the calendar too

QUESTION

Write the date on the black board?

Show a calendar & tell the students that there is a calendar for every year

Tell that there are 12 calendar pages or sections, one for each month & flip through the calendar

Point out that each month pages or sections starts with 1st & ends with 30th or 31st, except February which has 28 or 29 days

Point to weekday names & explain that calendars also tell us what will be the day on a given date

Provide an example. Point to the date & then to the corresponding day

Show any one festival on the calendar & tell students that major festivals & holidays are also marked on the calendar

TEACHER'S NOTES

Tell national festivals have fixed dates while some religious festivals fall on different dates each year

Help the students solve question 2 from the worksheet. Ask the students to look at the given calendar & mark 15th August
