

Daojali Hading

Daojali Hading is an important Neolithic site in Dima Hasao District of Assam. Extensive digging at this site has yielded polished stone tools, ceramics and kitchen items such as grinders, pestles and mortars. A large number of pots have also been found. These findings suggest that people here were growing and storing grains, and preparing food. Other finds include jadeite, a stone that may have been brought from China. Also common are finds of tools made of fossil wood (ancient wood that has hardened into stone), and pottery. [[Category:Archaeological sites in Assam
