

EVS

CHAPTER – 1

POONAM’S DAY OUT

CONTENT SUMMARY

UNIT 1

- Different types of animals

UNIT 2

- Eating habits of animals

UNIT 3

- Homes of animals

UNIT 4

- Sounds of animals

UNIT 5

- Movement in animals

UNIT – 1

Topic

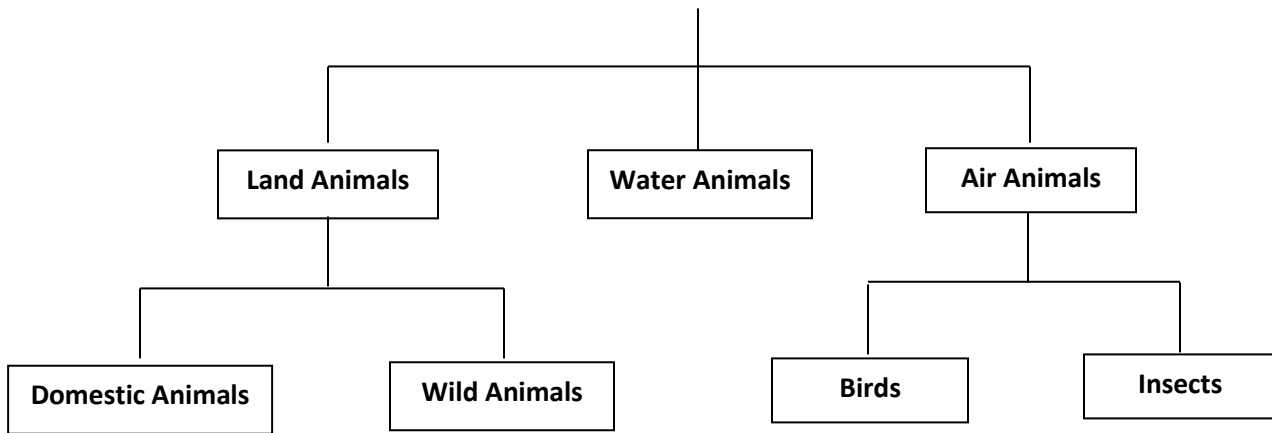

- Different Types Of Animals

DIFFERENT TYPES OF ANIMALS

Animals are found in different parts of the world. They are found in the forests, on the streets, in sea and ocean water and even high up on the mountains. They are also found in hot deserts as well as icy cold regions. Animals are divided into many kinds, depending upon the place they live in and their food habits.

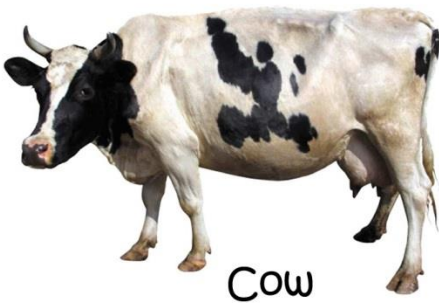

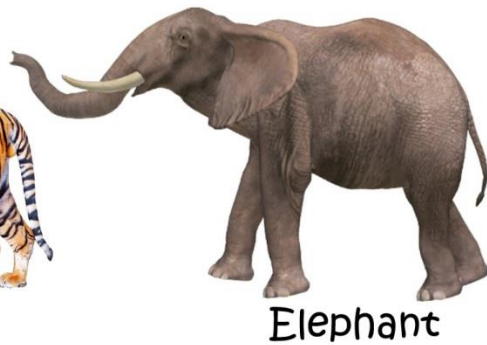

TYPES OF ANIMALS

LAND ANIMALS

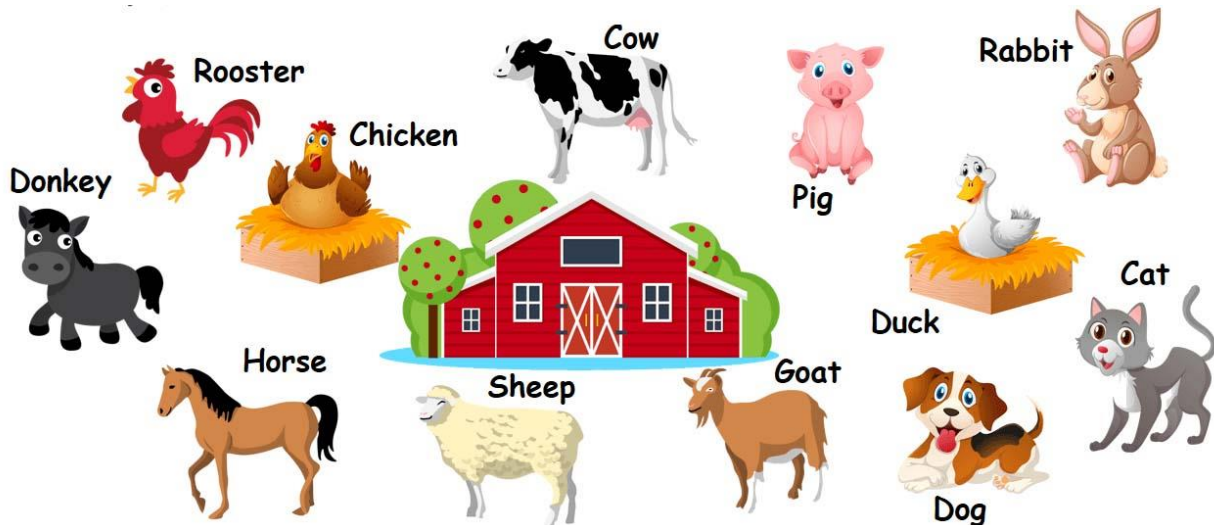

Animals that live on land are called land animals. Examples – lion, tiger, elephant, cow, cat, dog etc.

DOMESTIC ANIMALS

Animals that are kept at homes and farms are called as domestic animals.

Examples – cows, buffalos, goats, horses, hen and duck.

WILD ANIMALS

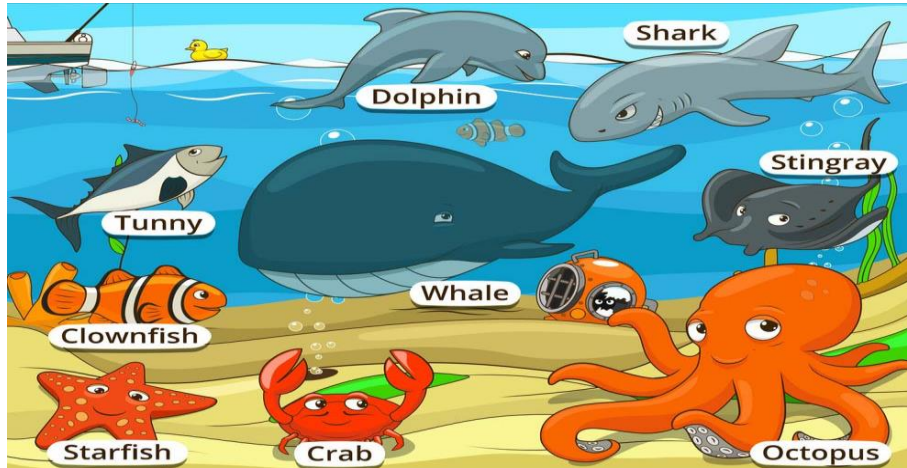

Animals that live in their natural surroundings in a forest are called wild animals.

Examples – lion, tiger, elephant, zebra, and giraffe etc.

WATER ANIMALS

An animal that lives in water for most or all of its lifetime is called water animals. Examples – fish, dolphins, shark, whale, octopus, and crab etc.

AIR ANIMALS

Animals which spend most of their time in the air are called aerial animals. Examples – birds and insects etc.
