

6/2.3

Q2 If the product of two whole numbers is zero, can we say that one or both of them will be zero? Justify through examples.

$$\underline{0} \times \underline{12} = 0$$

$$13 \times \underline{0} = 0$$

$$0 \times 0 = 0$$

Yes we can say that one or both of them will be 0.

Q3 If the product of two whole numbers is 1, can we say that one or both of them will be 1? Justify through examples.

$$\underline{1} \times \underline{19} = 19 \times$$

$$7 \times \underline{1} = 7 \times$$

$$1 \times \underline{1} = 1 \checkmark$$

No, we cannot say that one or both of them will be 1.
