CHAPTER	3 (Financial Accounting-II)
TOPIC/CONCEPT	Financial Statements of a Company
NAME OF THE ACTIVITY	When student has understanding of items of Balance Sheet and Income Statement it would be easier for them to Prepare Comparative or Common-Size Statements from Financial Statements of a Listed Company and interpret the results thereof.
TYPE OF ACTIVITY	Individual
LEARNING OUTCOME	Students will be able to apply the knowledge acquired from the chapter to real life Analysis of Financial Statements of a listed Company and interpret the results thereof. Therefore, doing themselves the practical application of theory learned in the class. They will see that all company's prepare accounting records in the same manner as they have understood in theory and what information is to be given by companies and more clarity about formats and Head and Sub- Heads of Financial Statements will definitely be achieved by the students.
PROCEDURE/ METHODOLOGY	1. Students will be shown sample Financial Statements of Listed Companies to match with what they have learnt about the items of Balance Sheet and Income Statement in theory and in reality. 2. Students will then be told to select any two listed companies and download their Balance Sheets and Income Statements and classify and divide the Heads and Sub- Heads of Balance Sheet and Income Statement and interpret what they have analysed. 3. Students will be guided on what information is required for the project. Demonstration will be given on how to download and analyse the head and Sub- Heads of the Balance Sheet and Income Statement of company selected by the students. 4. The Formats will be revised with the students. 5. The analysis will be done by the students and checked by the teacher. 6. Then student will prepare a report on the

	project by including the relevant documents and draw a conclusion of the project. 7. Then the students will submit the project report to the teacher.
QUESTIONS	The students may ask the following questions reading the Experiential learning they will get through this project: Q1. From where will we get the Financial Statements of the company? Q2. What information we need from the company website? Q3. What data we need to download from the company website. Q4. Are we supposed to give hand written report of can we type the report? Q5. What should be the length of the project? Q6. When we have to submit the Project?
SOLUTIONS/ HINTS	They will get the clear idea about all the queries when sample Financial Statements will be shown to them.
