➤ Homes Of Animals

HOMES OF ANIMALS

Animals need homes to live in. A place where an animal lives in called its **habitat**.

Some wild animals make homes for themselves. They live in natural shelters like caves, lakes or in the forest.

A lion lives in a den.

A bear lives in a cave.

A monkey lives in a tree.

A rabbit lives in a burrow.

A snake lives in a hole.

Ducks lives in a pond.

Bees live in beehives.

A crocodile lives on both on land and water.

Birds live on trees and build nests to lay eggs.

sparrow

woodpecker

tailorbird

Some animals live in man-made homes.

A dog lives in a kennel.

A horse lives in a stable.

A hen lives in a coop.

A cow lives in a shed.

A sheep lives in a pen.
