

ACTIVITY NO. – 24: LET’S CREATE A WEB OF LIFE

Subject	EVS
Class	III
Chapter/Unit	Web of Life
Topic	Things we need in daily life
Time	40 mins
Nature of Activity	Individual

What will I learn ?(Learning Outcome) :

To analyse that to fulfil the basic needs, we need different things that are dependent on other things.

Skills:

Applying, Creating

What I have to do ?

To create a web of life

What do I require ?

paper, scissors, colours, a round object (small)

What do I need to know ?

Everything we see around is interdependent on each other.

Teacher's Activity: Teacher will

- (1) first show how we are linked to the things as shown in the picture in NCERT book pg no 158 and 159.
- (2) ask them to draw their picture in the blank space
- (3) ask them to join their picture with lines to all those things which they feel are needed by them.

How will I proceed ?

Student's Activity : Students will

- (1) join their picture to the house.
- (2) then join the house with other things with house by filling in the observation table.

What have I observed ?

For each arrangement find out whether the bulb glows or not. Also, try to find out the reason wherever the bulb is not glowing.

S.No	What is a house made up of ?	From where does it come?
1	Wood	
2	Bricks	
3	Clay	
4	Water	

What have I learnt ?

All the things that we use are related to each other in some or the other way.

What am I curious to learn ? :

Let us find out , can human beings survive alone without depending on anybody or anything present in the environment?

Let me evaluate myself

Q1.What can you understand from this web ?

Q2. Share your web with your friends. Also, have a look at the web made by your friends. Are they all alike ?

Q3.What is a food chain ?

Q4.Differentiate between food chain and food web.

Q5.Draw a food chain.
