

Experiential Learning Activity-2

Subject	PSYCHOLOGY
Class	XII
Topic	PERSONALITY
Sub topic	Nomination method of Behavioural Analysis
Time	40 minutes
Nature of Activity	Group Activity
Skills	Critical thinking, Decision making

What will we learn? (Learning Outcome): Students will be able to

- to analyse people on the basis of their behaviour.

What we have to do?

- Nominate the best person from the class for various activities and reason for their decision.

What do we require?

- Text book, flash cards reflecting activities, Pens, Class list.

What do we already know?

- Each person has some or the other qualities and we all have unique personalities

Teacher's Activity: Teacher will

- ask students to write the appropriate name best suited for various traits. Name to be chosen from the classmates only.
- choose two students to segregate the chits on the basis of names and select the name with maximum number of chits.
- facilitate the same process for 5 such traits, like, hardworking, studious, responsible, caring, leadership qualities
- help students summarize and share this method of understanding and assessing personality.
- explain this method with the help of the analysis of the results obtained from the activity.

How will we proceed

Students' Activity: Students will

- Receive 5 chits from the teacher.
- listen to the teacher actively and share their inputs to the teacher.
- Write their opinions on the 5 chits one by one as per the instructions given by the teacher.
- Participate in the analysis of the data received through the activity.

What have we observed

TRAITS OF PERSONALITY	STUDENT WITH MAXIMUM NOMINATION	NUMBER OF STUDENTS NOMINATED FOR HER/HIM	INFERENCE
Hardworking			
Politeness			
Leadership			
Creativity			
Team spirit			

What have we learnt?

- Through social observation and social perception ,with respect to an individual's behaviour patterns , we can have some idea about the personality of people around us.

What am we curious to learn?

- To what extent this method of Personality assessment is reliable?

Let me evaluate myself.

Q1. On shifting to a new colony, how do you come to know about the personalities of various people in your neighbourhood during your initial days in that colony?

Q2. A new teacher joins the the school as your class teacher .After a week she has to select students for various co- curricular competitions. What strategy can you suggest to her for a justified selection of students?

Q3. How can nomination method be helpful , in your views, as an efficient method for personality assessment?

Q4. Name other methods which are used by psychologists for personality assessment.

Q5. Describe your personality with respect to a few strengths and weaknesses.
