

THE MAGIC GARDEN

A vibrant, painterly illustration of a garden. In the foreground, a winding path leads through lush greenery and various flowers. A large, multi-colored rainbow arches over the path. In the background, several tall trees with dense foliage stand against a soft, hazy sky. The overall style is whimsical and magical.

SUMMARY

There was a magic garden in the school playground. It was very pretty. There were many flowers like sunflower, roses, marigolds, poppies and pansies. Children came to the garden daily and watered them. All the flowers talked to each other and appreciated the innocent and helping nature of a child. It was a magical garden as it had fairies too.
