

THE ENORMOUS TURNIP

SUMMARY

The old farmer cleared his garden one day and sowed some turnip seeds. And soon, there were lots of turnips in the garden. But one turnip grew larger than the other turnips. It grew larger and larger until it was ENORMOUS! One day, the farmer decided to pull out the enormous turnip. So he called out to his wife. The farmer and his wife pulled the turnip, but it did not come out. They tried harder and harder but in vain.

They were tired now. So, they decided to call their neighbour's son. Their neighbour's boy helped them to pull out the enormous turnip. But still the turnip would not come out! The boy called his sister to help. And together they all tried to pull out the giant turnip.

And still nothing happened. . But the enormous turnip would not budge. And then all of a sudden, the huge turnip was uprooted. And they all came flying down.

Whew! What an effort it was to pull the giant turnip out of the ground. But they all enjoyed a great supper of turnip soup
