A LITTLE FISH STORY

SUMMARY

There are a great many million fish in the sea but this is a story of a little fish who feels unhappy because he is so small. He feels that the big fish have so much to be thankful for. The **little fish** was unhappy because he was so very **small**. However, soon his small size proves to be a blessing in disguise. One day the **fish** got caught in the meshes of a great net. The **fish** was thankful to be a **little fish**, as he was able to come out of the meshes of the net because of its **small** size. Then he realised that he should be happy with whatever he had.
