

LEARNING ACTIVITY

ACTIVITY 1 - PLANT GROWING ACTIVITY

This activity can be conducted with the students by sowing seeds in a planter (having soil).

Students can write down their findings by observing it's growth for the next few days.

ACTIVITY 2-NATURE WALK

Students can be taken out for a nature walk.

They can be told to observe different types of trees and plants and pen down their observations.

ACTIVITY3- THINK & SPEAK

1- Suppose you eat an apple and throw it's seeds in the garden. The seed gets water, air and sunlight. What do you think may happen within few days?

2-Imagine a world without trees. Write down your imagination in few words.
