

### **Noses (Activity)**

The teacher will take print out of dozens of simple nouns and verbs. Cut them into little slips of paper and put them into a hat or bag. Invite each student to draw two words from the hat (you can use more for more advanced students). The teacher will give them each a minute to come up with a sentence that uses those two words, and makes sense. Then invite each of them to share their sentence with the class. Collect the words and go again. It's okay to repeat words, as the repetition helps!
