

## EXPERIENTIAL LEARNING ACTIVITY

**Subject: Maths**

**Grade: III**

|                           |                                                                                                                                                                                                                                                           |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CHAPTER                   | 3                                                                                                                                                                                                                                                         |
| TOPIC/<br>CONCEPT         | GIVE AND TAKE                                                                                                                                                                                                                                             |
| NAME OF THE<br>ACTIVITY   | PLAY ADDING JENGA                                                                                                                                                                                                                                         |
| TYPE OF THE<br>ACTIVITY   | GROUP ACTIVITY                                                                                                                                                                                                                                            |
| LEARNING<br>OUTCOME       | STUDENTS WILL BE ABLE TO SOLVE ADDITION QUESTION MENTALLY WHILE PLAYING.                                                                                                                                                                                  |
| PROCEDURE/<br>METHODOLOGY | USING JENGA BLOCKS, WRITE SIMPLE ADDITION SUMS ON STICKY LABELS AND STICK A VARIETY SUMS TO THE END OF EACH BLOCK. PLAYED JUST LIKE JENGA, HOWEVER THE STUDENTS MUST WORK OUT THE ANSWER TO THE ADDITION SUM BEFORE THEY CAN ATTEMPT TO REMOVE THE BLOCK. |
| QUESTIONS                 | a) $123 + 145$<br>b) $23 + 67$<br>c) $23 + 55$                                                                                                                                                                                                            |
| SOLUTIONS/<br>HINTS       | a) 268<br>b) 90<br>c) 78                                                                                                                                                                                                                                  |
