

GRADE- IV

CHAPTER	3
TOPIC/ CONTENT	Give and take
FOCUS SPOT	Students find hard in addition when they have to borrow a number from the other place value. Sometimes they do not need to borrow in a step but they still go on borrowing.
WHY	Whenever there is a 0 in a number, there students find difficult whether they have to borrow or not and when they don't they still go on borrowing.
IMPACT	The students go wrong while borrowing a number from other place values when they sometimes don't need it. For e.g. subtract 3078 from 6086 Th H T O $\begin{array}{r} \overset{7}{\cancel{8}} \overset{18}{\cancel{6}} \\ -3 \\ \hline 3 \end{array}$ Here students sometimes borrow the numbers from all the places, they fail to notice that at the place of 0 it don't need to borrow any more number but students still borrowing the numbers.
