

Learning Activity

Tippy-Tippy Top. What Colour You Want?

Or

Colour Scavenger Hunt

Aim: To know the basic colours

Material required: A-4 size paper, paint (red, green, blue & yellow), five objects of each colour, one small bowl, four slips with name of above mention colours.

Procedure: Divide children in group of four. First child will pick up one slip from the bowl and apply the colour written on it on his/her hand and print it on A-4 size paper other two children will go to scavenging the same colour objects lying around the classroom and match the items to the colour on the sheet. The last child of the group will write down the name of the objects on the A-4 size sheet near the hand print. The group who brings all five objects first will be the winner of the game.

Skills Developed:

- This activity will help the students to develop their visual cognition, creativity and accurate identification of objections.
- It also develop colour association, confidence and team work amongst them.

Conclusion :

- Children complete the task of scavenging the same colour objects around the classroom and writing their names for accurate identification of colours.
