Connecting to Prior knowledge <i>(How do you check what learners already know?)</i>	Day 1: The facilitator will ask a few probing questions in order to check the prior knowledge of the learners: Ques.1 What is your best ability or talent? Ans1. I am a good singer. Ques.2 Have you ever boasted of your ability? Ans2. Yes many time. Ques.3 To whom you have boasted recently? Ans3. In front of my friends.

Implementation of lesson plan - Stage 1	

	Day 1: (Learning engagement 1) Think-pair-share: The facilitator will ask the children to pause and ponder over their last act of kindness. They will then form pairs and discuss their ideas with each other. After some time, the partners will be called to share the same with the rest of the class. Day 3: (Learning engagement 1) Frayer’s Model The facilitator will ask the learners to define the target vocabulary words and apply this information by generating examples and non- examples. This information will later be placed on a chart that is divided into four sections to provide a visual representations to learners. Frayer Model <table border="1" style="margin-left: auto; margin-right: auto;"> <tr> <td style="width: 50%; text-align: center;">Definition</td><td style="width: 50%; text-align: center;">Characteristics</td></tr> <tr> <td style="height: 100px;"></td><td style="height: 100px;"></td></tr> <tr> <td style="text-align: center;">Examples</td><td style="text-align: center;">Non-examples</td></tr> <tr> <td style="height: 100px;"></td><td style="height: 100px;"></td></tr> </table>	Definition	Characteristics			Examples	Non-examples		
Definition	Characteristics								
Examples	Non-examples								
Proceeding further <i>(What strategies will be used in the class to achieve the lesson objectives?)</i>	Day 1: (Learning engagement 2) Dictogloss: The facilitator will conduct one round of Model reading of the lesson ‘Nasruddin’s Aim’ in the class. The learners will be asked to write down the key words and then later reconstruct the text in their own words. Day 2: (Learning engagement 1) Brainstorming: The facilitator will ask the learners to think about the actual talent that they have and are they overconfident of it..This activity will be followed by a loud reading session by each student in the class with proper stress, intonation and pronunciation of words. (Roll number wise) C : Communication-Communicates Clearly <u>RUBRICS</u> • Listens effectively to decipher meaning, including								

	knowledge, values, attitudes and intentions. • Uses communication for a range of purposes (e.g. to inform, instruct, motivate and persuade).																
Learning Logs <i>(How learners keep a track of what they are learning, includes reflections)</i>	Day 3: The learners will find the meaning of the difficult words from the dictionary and jot them down in their notebook. Word Meanings <table> <thead> <tr> <th>Word</th><th>Meaning</th></tr> </thead> <tbody> <tr> <td>1. Chatting</td><td>To talk familiarly</td></tr> <tr> <td>2. <u>*Integration of Arts/ICT</u>	situation then how would you react? Prepare a Word file showcasing your reaction. Critical Thinking- Uses Systems Thinking <u>RUBRICS</u> • Uses various types of reasoning as appropriate to the situation. • Effectively analyzes and evaluates major alternative points of view. While the learners are reading aloud the facilitator will assess the reading style and level of the learner. Also with the help of the questioning technique (Hot Seat) the understanding of the learner will be checked.
