

CLASS VI

EXPERIENTIAL LEARNING ACTIVITY-1

CHAPTER	MENSURATION
TOPIC / CONCEPT	ANGLES
NAME OF THE ACTIVITY	Classification of Angles
MATERIAL REQUIRED	Two coloured pieces of paper, glue, brass fastener or split pin
DURATION	40 minutes approximately
LEARNING OUTCOME	Students will be able to classify angles according to their types
PROCEDURE / METHODOLOGY	Step – 1 We will make angles using two coloured pieces of papers and cut them in arrows

Step -2 Now we will attach these arrows to our page with a brass faster

Step – 3 We will glue the bottom arrow to the page, leaving the second arrow free to move into whatever angle needed. Now we can create angles of various degrees.
