

Energy Resources

Use the information on energy resources to fill in the table. The first one has been done for you.

Energy resource		How does it work?	Two Advantage	Two Disadvantages	Renewable (Yes or No)
Fossil Fuels		Gas, coal or oil is burned in power stations	Give out a lot of thermal energy when they burn. Cheap and reliable	Creates a lot of pollution, eg global warming and acid rain. Will run out	No
Nuclear Energy					
Wind Energy					
Solar Energy					
Wave Energy					
Tidal Energy					
Biomass					
Hydroelectric Power					
Geothermal Energy
