

Saying Without Speaking

Chapter -7

Poem-I have a sister, My Sister cannot Hear .

I have a sister, My sister cannot hear

I have a sister
My sister is deaf.

She is special.

There are not many sisters
like mine.

My sister can play the **piano**.

She likes to feel the
deep rumbling chords.

But she will never be
able to sing.

She cannot hear the tune.
She likes to leap, to tumble,
to roll, to climb to the top of
the monkey bars.

Now my sister has started
going to my school, although

our mother still helps her
speak and lip-read at home.

The teacher and children do
not understand every word
she says, like sister
or water or thumb.

I wore my sunglasses
yesterday.

The frames were very large.

The lenses are very black.

My sister made me take
them off when I spoke.

What do my brown eyes say
to her brown eyes?

Challenges with Disabilities

- *Most of us can hear and speak, but there are some people who can neither hear or speak. These people talk through actions. They understand what the other people is saying by studying their lip-Movements.*
- *We all together cannot perform all the actions together, e.g: singing, dancing, writing poetry etc. Some of us can sing well, some can draw well, some can write a good poetry. We all are special in our own ways. Hence, in schools we can learn from each other.*
- *Like all children, children who cannot speak and hear also go to school to read and write. In schools, sign language is taught to them.*

Let us study some different face expressions and emotions.

Now lets study some sign Language actions
