

HIAWATHA

By: H.W. Longfellow

Explanation of Stanza-1

Haiwatha learned the language of the birds, their names and all their secrets. The secrets regarding how they built their nests in summer, where do they hide themselves in Winters and named the as Hiawatha chickens.

Explanation of stanza-2

Then he learns the language of beasts and all their secrets too. He wonders how people built their homes, how squirrels hide themselves, how deers can run so fastly and how Rabbits run so slow then he named them as their brothers.
