

AMAZON BASIN – a Hotspot of Biodiversity

WORKSHEET :

A. Identify the following statements as right or wrong, and if wrong, explain why it is wrong:

1. Tapirs eat ants.

2. The silence in the green rainforests is very calming.

3. The anaconda swallows its prey.

4. The sloth can easily escape a jaguar by running rapidly up a tree.

B. Think and answer:

1. Why do you think man is clearing the rainforests?

2. List 4 advantages of keeping the rainforests intact.
